

materials:

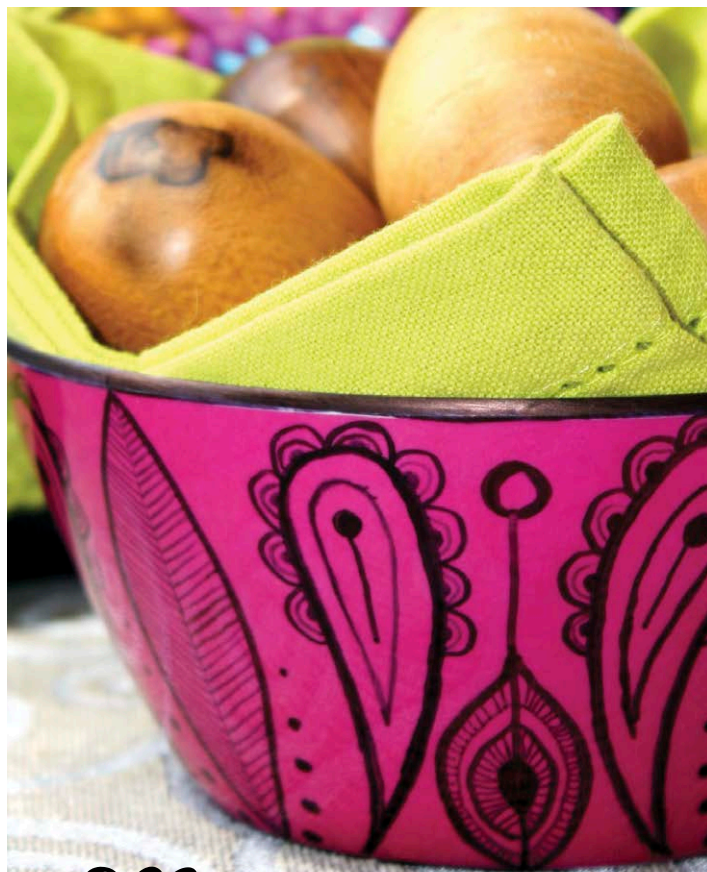

- 1 x Melamine bowl in a colour of your choice
- Black sharpie markers in different sizes
- Spray on clear lacquer

instructions:

1 Wash the bowl and make sure it is free of any debris and grease.

2 Plan your design on paper. Once complete begin drawing it on the melamine bowl. Make sure that your hands are clean and dry. Complete the pattern/design.

3 Place the bowl upside down on a piece of newspaper and spray the outside of the bowl with a thin layer of clear lacquer. Two coats are required. This will seal the design and prevent it from rubbing off. Hand wash in cold mildly soapy water only. Although the lacquer will seal the design, it will not make it dishwasher safe. **CH**
