

materials:

- 8 x pink Antheriums
- Glass pebbles
- 60cm tall tubular vase
- water

instructions:

1 Line the bottom of the vase with a few pebbles and add 5cm water.

2 Take an antherium and cut it 10cm short of the crown. Place inside the vase.

3 Take a second antherium and cut its stem longer than for the first one. The antheriums will be layered at different lengths inside the vase. Measure each stem against the previous placement before cutting it.
CH

This arrangement was demonstrated by Ronel Swart of Magalies Valley Lodge & Spa

Antheriums have a very strong graphic appearance. Arranging them on their own in a simplistic environment adds just the right balance for a modern and classy décor element.
