

materials:

- 6 x 40-50mm Flat turquoise stones
- 7 x 8mm Flat round metal beads
- 13 x Eye pins
- 2 x Medium jump rings
- 1 x Small jump ring
- 1 x Clasp hook

instructions:

1 Thread all the beads onto the eye pins. Turn simple loops.

2 Start linking the large turquoise stones with the smaller silver bead links in between by lifting the leg of the simple loop and hooking it onto the loop on the other bead. Bend the leg of the loop back into place. Complete this process until all the turquoise stones have been used. Attach the remaining two metal bead links onto each end of the necklace.

3 Open the small jump ring and hook it through the loop on the one end of the necklace. Hook a medium link onto it before closing the jump ring. For the other side, open a medium jump ring and hook the other end of the necklace onto it, together with the hook clasp. Close the jump ring.

Optional: If preferred a short, decorative piece of chain can be used to lengthen the necklace.
