

materials:

- Green Granny Smith apples
- Sharp paring knife
- Marking pen
- Teaspoon
- Lemon juice
- Basting brush
- Tea light candle
- Cooking oil
- Kitchen towel

Apple

tea light candle holder

instructions:

1 Trace the placement of the tea light candle on the top of the apple using a marking pen.

2 Proceed to cut on the line with the sharp paring knife. Be very careful not to cut yourself.

3 Using the teaspoon, scoop the flesh from the apple inside the cutting line. Place the tea light candle inside the hole scooped out. If it is not deep enough, keep scooping until the tea light is sunk deep enough into the apple.

4 Brush the inside of the apple with lemon juice to keep it from turning brown.

5 Buff the apple to a bright green sheen using a drop of cooking oil and a piece of kitchen towel. **CH**
